

Bertec® Portable Essential

The Bertec® Portable Essential™ provides a variety of assessments, including standard static balance tests, weight shifting, and optional higher-level balance testing for athletes (COBALT™). Static balance and weight shifting activities can be easily integrated into a customized therapy program.

- High-sensitivity dual-balance force plate
- Objective assessment of balance with normative data for comparison
- Convenient for clinical rehabilitation, home health, bedside, and community health programs
- Portable to bring balance services beyond clinic walls
- Training menus for use with biofeedback rehabilitation
- Low profile and light weight
